## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Prior arts of record does not disclose a flight management system including a computer that stores a preplanned lateral route of flight of the aircraft, the system includes a method for providing a return to path maneuver in the event that the aircraft deviates from the preplanned route and the aircraft is inside a present boundary of the preplanned lateral route, the method comprises: choosing either a first waypoint from the waypoints of the preplanned lateral route as a new candidate active waypoint if the aircraft is on the TO side of the way line of the first waypoint; or choosing a second waypoint following after the first waypoint from the waypoints of the preplanned lateral route as a new candidate active waypoint if the aircraft is between the wayline of the first waypoint and the wayline of the second waypoint; the return to path route is calculated such that the aircraft overflies the new candidate active waypoint if the aircraft is in a capture zone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
